## ABOUT INNOVITS

At present, Engineering graduates concentrate on completion of degree without appropriate practical orientation and understanding various subject concepts. It does not impart extra talents, skills & scope to design and implement various projects in engineering field.

Service industry is highly job potential sector and it requires highly talented intra personal communication computation skills. Engineering curriculum may not cover these skills before entering into the job field. In order to improve such skills, students should participate in various youth festivals, seminars & workshops.

INNOVITS 2K23 provides an opportunity for engineering students to exhibit their hidden talents and skills. It acts as a platform for the interaction among engineering students with senior faculty members, industrial & field engineers

## ABOUT THE INSTITUTE

Vaagdevi Institute of Technology & Science was established under the auspicious of Sri Sri Sri Mookambika Educational Society under the leadership of Sri G. Hussain Reddy, Secretary and Correspondent. He is the Instrumental in establishing this institution of repute in Rayalaseema in the year 2002-03. It is affiliated to JNTUA, Anantapuramu. This college offers three under graduate courses in the specializations of EEE, ECE, CSE.

A large number of our students are well placed in a number of MNCs and central government organizations. Today after witnessing the rapid growth of this institution in the past few years, students from different parts of the state are joining for their bright future.

## BEST PRACTICES BEING FOLLOWED AT VITS

- » First Wi-Fi campus in JNTUA affiliated colleges.
- » Vaagdevi Alumni Welfare Association is functioning since 2006.
- » Guest Lectures are being arranged regularly through Vaagdevi Alumni Welfare Association.
- » To improve technical skills SMART classes are being arranged.
- » Advance Teaching Learning Methodology through digital classes.
- » Social service activities in villages through to NSS Units.
- » To improve the physical health, everyday games & sports hour being conduct for all B. Tech students.

## ABOUT INNOVITS

At present, Engineering graduates concentrate on completion of degree without appropriate practical orientation and understanding various subject concepts. It does not impart extra talents, skills & scope to design and implement various projects in engineering field.

Service industry is highly job potential sector and it requires highly talented intra personal communication & computations skills. Engineering curriculum may not cover these skills before entering into the job field. In order to improve such skills, students should participate in various youth festivals, seminars & workshops.

INNOVITS 2k22 provides an opportunity for engineering students to exhibit their hidden talents and skills. It acts as a platform for the interaction among engineering students with senior faculty members, industrial & field engineers.

**A Report On**

**INNOVITS 2K20 Celebrations**

Due to the unprecedented circumstances of the COVID-19 pandemic, the eagerly awaited INNOVITS 2K20 program had to undergo significant modifications. Despite the challenges posed by the global health crisis, the event persevered, albeit in a virtual format, ensuring the safety and well-being of all participants. From March 17th to 18th, 2020.

All B.Tech four-year students enthusiastically joined this digital platform, which provided a unique opportunity for them to showcase their talents and skills remotely. INNOVITS 2K20 became a virtual hub for engineering students to engage in meaningful interactions with senior faculty members and professionals from the industry and field. Through innovative technological solutions, the essence of the event remained intact, fostering collaboration and knowledge exchange amidst unprecedented times.

### ABOUT INNOVITS 2K19

At present, Engineering graduates concentrate on completion of degree without appropriate practical orientation and understanding various subject concepts. It does not impart extra talents, skills & scope to design and implement various projects in engineering field.

Service industry is highly job potential sector and it requires highly talented intra personal communication & computation skills. Engineering curriculum may not cover these skills before entering into the job field. In order to improve such skills, students should participate in various youth festivals, seminars & workshops.

INNOVITS 2K19 provides an opportunity for engineering students to exhibit their hidden talents and skills. It acts as a platform for the interaction among engineering students with senior faculty members, industrial & field engineers.
