

3.2.1

Institution has created an ecosystem for innovations, Indian Knowledge System (IKS), including awareness about IPR, establishment of IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident.

Vaagdevi Institute of Technology & Science (VITS) has set up an ecosystem for promoting innovations, entrepreneurship, and other projects including knowledge production and transfer through departmental collaboration using a multidisciplinary approach.

As a part of this, we conduct National level technical symposium termed as “Innovits” for students every year that include presentations of various technical trending topics results in innovative ideas and practice. To make students learn the present trending practices in industries and to become an entrepreneur, various seminars/webinars/workshops on entrepreneurship are conducted. Also, to enhance skills to the next level, faculty members are always encouraged to do research activities, paper publications in reputed journals, text books publications, patent publications, seminars and workshops.

Some of the faculty published papers in reputed journals. And a small number of the faculty members have patent publications and have been chosen by JNTU Anantapur, Ananthapuramu, to serve as research supervisors.

Intellectual Property Rights (IPR) was created on 21/02/2022. Under this we conduct various activities to create more awareness on patents, copyrights and trademarks.

The main aim of VITS is to promote innovative thinking of the students and utilize their creative ideas for the benefit of society keeping in view of the importance of technology. With a combined action plan of all departments, every initiative to encourage the participation of students in various technical exhibitions is taken to nurture their technical expertise. Every year add-on courses and industrial visits are also organized for students for this purpose.
